On the Subject of Not Not Not
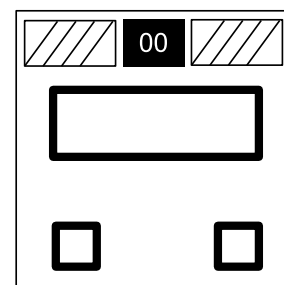

This is not not "Not Not", but rather "Not Not Not", and not what you'd think Not "Not Not" wouldn't not be. Balanci'

- This needy will ask a question with an objectively true or false answer at the start.
- Answer this question correctly, and remember* this answer for the next activation.
- For every future activation, use the result of the last answer to answer the current question.

*If enabled in mod settings you do not have to remember your last answer, but rather the button you pressed last will be colored a blue-ish tint.
